

## SJNY IRB Approval CODE

**Institutional Review Board**  
ST. JOSEPH'S UNIVERSITY

**NOTICE OF IRB APPLICATION DISPOSITION**

– *WARNING* –  
***ONLY DEPARTMENT REPRESENTATIVES MAY COMPLETE THIS FORM***

Name of Principal Investigator : \_\_\_\_\_

Title of Proposed Research:

Date Application Submitted:

Following review by  department representative/ executive committee, the proposed research identified above has been –

- Disposed as Exempt. It satisfies all IRB regulations for Exempt Status and may proceed as planned with no further IRB oversight.
- Approved through Expedited Review. It satisfies all IRB regulations for Expedited Review and for ethical conduct of research with human subjects, and may proceed as planned. Please note that IRB approval is limited to a term of one year from the date of this notice. Any project extending beyond that term must submit to the IRB an Application for Continuation indicating there has been no material changes in the research protocol.
- Approved through Full Review. It satisfies all IRB regulations for ethical conduct of research with human subjects and may proceed as planned. Please note that IRB approval is limited to a term of one year from the date of this notice. Any project extending beyond that term must submit to the IRB an Application for Continuation indicating there has been no material changes in the research protocol.
- Approved Pending Revision. It does not satisfy all IRB regulations for ethical conduct of research with human subjects and may not proceed as planned. See the specific violations of IRB regulations and required revisions listed on page 2. If an amended application is submitted which incorporates the required revisions and no other changes, it will be approved.
- Deemed in need of Full Review. It does not satisfy all IRB regulations for Expedited Review. An Application for Full IRB Review must be forwarded to the Executive Committee. See the specific violations of IRB regulations for Expedited Review listed on page 2.
- Denied. It does not satisfy all IRB regulations for ethical conduct of research with human subjects and may not proceed as planned. See the specific violations of IRB regulations listed on page 2. As the Executive Committee does not foresee any reasonable revisions which can correct for these violations, we cannot grant approval for its conduct.

List of specific violations of IRB regulations for Expedited Review and/or ethical conduct of research with human subjects, and required protocol revisions where possible.

Note - A principal investigator who believes an IRB disposition to approve pending revision or to deny an application has been in error may appeal to the Executive Committee for reconsideration of the disposition. See the conditions and procedures for appeal at the link [Process for Appealing Adverse IRB Dispositions](#).
